

# EGCS Ground Control Station

EGCS GROUND CONTROL STATION

MULTI-FUNCTION · GENERAL PROTOCOL

## **EGCS**

# **Ground Control Station**

● ***EGCS ground control station is developed for various types of UAV ground control, monitoring UAV health status, and completing the assigned task. At the same time, it can also be used for high fidelity simulation training for students or practical operators.***

### **Key Features:**

- ***Complying with Standard 4586.***
- ***2D&3D Flight Mission Plan Capability.***
- ***Various Types of UAV Control Capability.***
- ***Multi-station and Multi-computer Capability.***
- ***Supporting Flight Simulation and Control Training.***
