EAGLESKY

Flight Control Product

ZSTAR-100

- Designed for small and medium size UAV, high safety, low cost and high integration level.

Key Features:

- Nonlinear high-precision GPS/SINS/AHRS algorithm, automatically switching to AHRS mode when GPS signal is lost.

- Customized highly reliable control strategy and algorithm.

- Automatic generation of general or customized flight plan.

- Reliable electronic fence.

- Supporting autonomous, semi-autonomous, manual and other flight modes.
